100% BIO-BASED ECO RANGE *of Surfactants*

Turning the WORLD'S PRODUCTS GREEN

Sustainability is an integral part of our Business, informing and guiding our development strategies. The 100% Bio-Based ECO Range is the widest range of 100% renewable surfactants on the market. By using an alternate route to EO with bioethanol from biomass sources, it significantly increases the bio-based content of ethoxylated products and reduces reliance on fossil fuels. Moreover, the ingredients are manufactured with renewable energy.

With the 100% renewable, 100% Bio-based ECO Range, you won't have to choose between meeting your sustainability goals and delivering high performance products to your consumers.
