

## THE BRITISH SOCIETY OF COSMETIC CHEMISTS

THE FALL PROGRAM for the British Society began on October 13th. A lecture entitled, "A Spectrophotometric Quality and Stability Criteria for Medicinal Liquid Paraffin," was presented by R. Schnurmann.

On November 10th, R. Barer spoke on "Spectroscopy and Microscopy."

The last scientific meeting for 1955 was held on December 8th. An address on "Some Aspects of Perfumery Chemicals" was given by A. J. Krajkeman.

All scientific meetings take place at 7:30 p.m. at The Royal Society of Arts, John Adam Street, London, W.C. 2.

Under joint arrangements with the Society of Cosmetic Chemists of Great Britain, a three-year, part-time course on the chemistry and technology of cosmetics is being held at Acton Technical College. The course is intended for research assistants, laboratory technicians and assistant chemists in the cosmetic industry. The course will lead to an award of the Diploma of the Society of Cosmetic Chemists, holders of which may later qualify for the Associateship in the Society.
