

## AUTHOR INDEX TO VOLUME VI

- Andrew, Warren, The Anatomy and Histology of Aging Skin, 299
- Baker, William B., Tropical Uses of Several Antibiotics: Vehicles Employed, 313
- Baumler, A., The Structural Proteins of Epidermis and Their Possible Relation to Aging skin, 324
- Birmingham, Donald J., Alterations in the Skin Physiology Following Continuous Use of Soaps and Detergents, 3
- Bouillette, Pierre L., William A. Poucher, The Pioneer, 69
- Carruthers, C., The Structural Proteins of Epidermis and Their Possible Relation to Aging Skin, 324
- Chase, Herman B., The Physiology and Histochemistry of Hair Growth, 9
- Conrad, Lester I., Acetylated Lanolin Derivatives, 344
- Crockett, R. H., The Evaluation of Commercial Alkyl Sulphates, 124
- Dusenbury, J. H., The Effect of Bilateral Structure on the Chemistry of Keratin Fibers, 356
- Epstein, M. B., Foam Transitions and Foam Persistence, 370
- Flesch, Peter, Newer Aspects of Epidermal Differentiation, 14
- Flesch, Peter, Laboratory Testing of the Effects Upon the Skin of Topical Agents, 161
- Flesch, Peter, The Chemistry of the Aging Skin, 377
- Greenwald, Harold L., Theory of Emulsion Stability, 164
- Hazleton, L. W., The Evaluation of Chemicals by Application to Animal Skin, 178
- Henderson, Edward, Social and Economic Aspects of Skin Geriatrics, 382
- Holmes, G. E., The Collapsible Tube, 107
- Ivanovsky, L., Wax and the Cosmetic Chemists, 130
- Jeffries, E. B., The Effect of Bilateral Structure on the Chemistry of Keratin Fibers, 356
- Lauffer, P. G., Location of Books on Cosmetic Formulations, 49
- Lennon, W. J., Acylated Amino Acids in Shampoos, 407
- Littlejohn, W. R., On Purchasing Essential Oils, 260
- Lubowe, I. I., The Uses and Newer Applications of the Silicone Compounds in Dermatology and Cosmetics, 19
- Lutton, E. S., The Polymorphism of Glycerides—An Application of X-ray Diffraction, 26
- Marriott, R. H., pH Value and Its Implications, 289
- Motiuk, Kalmes, Acetylated Lanolin Derivatives, 344
- Paton, H., White Oils, 245
- Pickthall, J., The Effect Upon Emulsions of the Hydroxy Compounds in Beeswax, 263
- Polan, E., Records and Costings in the Perfumery and Cosmetic Industry, 251
- Poucher, William A., A Classification of Odours and its Uses, 80
- Powell, E. W., The Skin as a Community of Structures, 118
- Powell, E. W., The Skin as a Community of Structures—Part II, 276
- Powers, Donald H., Annual Report of the President, 1
- Ross, Sydney, Toward Emulsion Control, 184
- Rostenberg, Adolph, Jr., The Sequence of Events in the Development of an Eczematous Sensitization, 34
- Rothman, Stephen, The Mechanism of Percutaneous Penetration and Absorption, 193
- Shorts, H., The Structural Proteins of Epidermis and Their Possible Relation to Aging Skin, 324
- Smith, W. B., Development of a Detergent Test—Part I, 96
- Smith, W. B., Development of a Detergent Test—Part II, 239
- Spoor, Herbert J., Correlation Between Animal and Human Testing of Materials Used in Skin Care, 200
- Strianse, S. J., Location of Books on Cosmetic Formulations, 49
- Taylor, A., Development of a Detergent Test—Part I, 96
- Taylor, A., Development of a Detergent Test—Part III, 239
- Thomas, H. Gregory, William A. Poucher, The Man, 76
- Tillotson, C. C., Some Physical Chemical Properties of Stearic Acid, 40
- Traub, Eugene F., Correlation Between Animal and Human Testing of Materials Used in Skin Care, 200
- Whitman, Ross, The Mercaptan-Disulfide System in Permanent Waving, 387
- Wilson, Abraham, Film Properties and Compound Formation in the Sodium Lauryl Sulfate-Lauryl Alcohol-Water System, 392
- Witten, Victor H., Some Uses and Limitations of Radioactive Isotopes in Cosmetic Chemistry—From a Dermatologist's Point of View, 399
- Woernley, D. L., The Structural Proteins of Epidermis and Their Possible Relation to Aging Skin, 324
- Zussman, H. W., Acylated Amino Acids in Shampoos, 407
