

# FIRST WORLD-FAT-CONGRESS

Hamburg, from 12. to 18. October, 1964

organized by the

INTERNATIONAL SOCIETY FOR FAT RESEARCH (ISF)

on the occasion of its tenth Anniversary

together with the

DEUTSCHE GESELLSCHAFT FÜR FETTWISSENSCHAFT (DGF)

in friendly association

with the following international organisations:

*International Association of Seed-Crushers (IASC)*

*International Federation of Margarine Associations (IFMA)*

*Association Internationale de la Savonnerie et de la Détérgence (AIS)*

*International Federation of the Societies of Cosmetic-Chemists (IFSCC)*

Lectures, grouped in eight sections, will cover the whole field of fats and oils and their products:

- I. Oil-seed cultivation; Technology of vegetable and animal oils and fats
- II. Fundamental research and analysis (general methods)
- III. Fats as foodstuffs (butter, margarine, edible oils, etc.)  
and as constituents of feedingstuffs
- IV. Biochemistry and Clinical Biology of fats
- V. Soaps and detergents
- VI. Fats and fatty acids in organic surface coatings
- VII. Cosmetic Science
- VIII. Miscellaneous applications

Chemists, engineers, biologists, physicians, cosmetic specialists, and others interested in the above subjects are cordially invited to participate, and to write for further information to:

DGF-Geschäftsstelle, Lortzingsstraße 10, 44 Münster/Westf., Germany
