

# JOINT CONFERENCE ON COSMETIC SCIENCES

Washington Hilton Hotel  
Washington, D. C., April 21–23, 1968

## PROGRAM

### Analysis of Oxidation Dyes in Hair Colorants by Thin Layer and Gas Chromatography

By: R. Feinland, Ph.D.; Clairol, Inc.  
S. Goldstein; Clairol, Inc.  
A. A. Kopf; Clairol, Inc.

### Computer Usage in a Cosmetics Research Laboratory

By: Charles M. Fairchild; Revlon Research Center, Inc.  
Jay W. Sorkin, Revlon Research Center, Inc.

### Route of Penetration of Allergens Through Guinea Pig Skin

By: Leonard J. Vinson, Ph.D.; Lever Brothers Research Center  
Vincent F. Borselli; Lever Brothers Research Center  
Edward J. Singer, Ph.D.; Lever Brothers Research Center

### Halogenated Salicylanilides: Photochemical and Analytical Techniques

By: F. W. Baker, Ph.D.; Miami Valley Laboratories, Procter & Gamble Company  
G. E. Booth, Ph.D.; Miami Valley Laboratories, Procter & Gamble Company

### Gas Chromatography in Cosmetic Analysis: A Progress Report

By: John H. Jones; Div. Color and Cosmetic Chemistry, Food & Drug Adm.  
Sylvan H. Newburger, Ph.D.; Div. Color and Cosmetic Chemistry, Food & Drug Adm.  
Margaree H. Champion; Div. Color and Cosmetic Chemistry, Food & Drug Adm.  
Frederick C. Gross; Div. Color and Cosmetic Chemistry, Food & Drug Adm.  
Christine M. Kottemann; Div. Color and Cosmetic Chemistry, Food & Drug Adm.

### Interpretation of Gravimetric Antiperspirant Data

By: W. M. Wooding; Carter Products Research, Carter-Wallace, Inc.

### Delayed Contact Hypersensitivity Studies in Man and Animals

By: Howard I. Maibach, M. D.; San Francisco Medical Center  
Theophilus R. Carson; Div. Pharmacology, Food & Drug Administration  
Francis N. Marzulli, Ph.D.; Div. Pharmacology, Food & Drug Administration

### Thin Layer Chromatographic Analysis of Some Natural Resins Used in Perfumes

By: H. H. Wisneski, Ph.D.; Div. Color & Cosmetic Chemistry, Food and Drug Adm.

### A New Method for Biological Evaluation of Products Used in the Mouth

By: Myron S. Weinberg, Ph.D.; Foster D. Snell, Inc., Biological Science Laboratories  
Adolfo Hernandez, D.V.M.; Foster D. Snell, Inc., Biological Science Laboratories  
Alvin M. Sarnoff, D.D.S.; Consultant—Foster D. Snell, Inc.

### Development and Evaluation of an Effective Preservation System

By: Saul Tenenbaum; Revlon Research Center, Inc.

### The Effect of DMSO on Percutaneous Absorption: A Mechanistic Study

By: Stanley G. Elfbaum, Ph.D.; Gillette Research Institute  
Karl Laden, Ph.D.; Gillette Research Institute

### Intermediates and Products in Oxidative Hair Dyeing

By: John F. Corbett; Gillette Research Laboratory, Reading, England

### In Vivo Studies of Human Percutaneous Penetration

By: Howard I. Maibach, M.D.; San Francisco Medical Center  
Robert J. Feldmann, M.D.; San Francisco Medical Center

### Microbiology of Cosmetic Preparations

By: Arthur P. Dunnigan, Ph.D.; Div. of Microbiology, Food & Drug Administration

### Skin Transpiration I

By: Margaret Sue Burns; Clairol, Inc.  
Joseph Magnani, Ph.D.; Clairol, Inc.  
Donald A. Clarke, Ph.D.; Clairol, Inc.

### Some Application of Column Chromatography in Cosmetic Analysis

By: Sylvan H. Newburger, Ph.D.; Div. Color & Cosmetic Chemistry, Food & Drug Adm.  
Henry M. Davis; Div. Color & Cosmetic Chemistry, Food & Drug Adm.  
John H. Jones; Div. Color & Cosmetic Chemistry, Food & Drug Adm.  
H. Wayne Stevenson; Div. Color & Cosmetic Chemistry, Food & Drug Adm.  
Margaree H. Champion; Div. Color & Cosmetic Chemistry, Food & Drug Adm.  
Christine M. Kottemann; Div. Color & Cosmetic Chemistry, Food & Drug Adm.
