

INDEX TO VOLUME 26

AUTHOR INDEX

- Anderson, David W., Jr. See McConville, John F.
- Black, J. G. and Howes, D. Percutaneous absorption of Triclosan from toilet preparations, 205
- Block, M. Four different methods for the characterization of dentifrices and other semisolids, 189
- Boltralik, J. See Lorenzetti, O. J.
- Boon, Elizabeth. See Van Abbé, N.J.
- Breach, G. D. Microbiological quality control—a case history, 315
- Bree, W. See Staal, E. M.
- Brown, A. C. and Swift, J. A. Hair breakage: the scanning electron microscope as a diagnostic tool, 289
- Busby, E. See Lorenzetti, O. J.
- Cambrai, M. The role of essential fatty acids (EFA) in the regulatory process of malpighian cell membranes, 485
- Clar, E. J., Her, C. P., and Sturelle, C. G. Skin impedance and moisturization, 337
- Clark, E. W. Estimation of the general incidence of specific lanolin allergy, 323
- Cooper, A. D. See Fitzpatrick, F. A.
- Cotty, V. F. See Jacobs, Gene.
- Cropper, C., Platt, P., and Puttnam, N. A., Analytical procedures for the determination of chlorhexidine in oral products, 355
- Davis, W. B. and MacDonald, A. C. The examination of particulate inclusions in toothpaste, by freeze-fracture, replication and transmission electron microscopy, 477
- Davis, W. B. and Rees, D. A. A parametric test to measure the cleaning power of toothpaste, 217
- Dravnieks, A. Evaluation of human body odors: methods and interpretations, 551
- Eigen, Edward, Legenyei, Aladar, and Weiss, Sidney. An *in vivo* method for the detection of residual antimicrobial activity on human skin, 411
- Fairchild, C. M. See Kabacoff, B. L.
- Faucher, J. A. See Goddard, E. Desmond.
- Ferguson, Terry. See Prottey, Colin.
- Finklestein, Paul. See Wooding, W. M.
- Fitzpatrick, F. A., Summa, A. F., and Cooper, A. D. Quantitative analysis of methyl and propylparaben by high performance liquid chromatography, 377
- Fortenberry, B. See Lorenzetti, O. J.
- Fouweather, C. See Porter, J.
- Gabriel, D. M. Implications of the enlarged European Economic Community on the quality and safety of cosmetics and toiletries, 65
- Goddard, E. Desmond, Faucher, J. A., Scott, R. J., and Tunney, M. E. Adsorption of Polymer JR on keratinous surfaces—Part II, 539
- Goddard, E. Desmond, Phillips, Thomas S., and Hannan, Roy B. Water soluble polymer-surfactant interaction—Part I, 461
- Gross, Jürgen. See Rieger, Klaus.
- Hall, Kathleen and Wolfram, Leszek J. Isolation and identification of the protein component of hair melanin, 247
- Hannan, Roy B. See Goddard, E. Desmond.
- Henry, S. M. See Jacobs, Gene.
- Her, C. P. See Clar, E. J.
- Hollander, Horst. See Rieger, Klaus.
- Howes, D. The percutaneous absorption of some anionic surfactants, 47
- Howes, D. See Black, J. G.
- Howlett, H. C. S. and Van Abbé, N. J. The action and fate of sodium pyridinethione when applied topically to the rabbit, 3
- Hudewenz, V. See Paukner, Ernst.
- Jacobs, Gene, Henry, S. M., and Cotty, V. F. The influence of pH, emulsifier, and accelerated ageing upon preservative requirements of O/W emulsions, 105
- Jolly, Eugene R. and Sloughfy, Charles A. Clinical evaluation of baby oil as a dermal moisturizer, 227

- Kabacoff, B. L. and Fairchild, C. M. Determination of zinc pyrithione by chelate exchange, 453
- Kligman, Albert M. See Leyden, James J. Koglin, Bernd. The stability of suspensions, 439
- Kurihara, Haruki. See Lin, T. J.
- Legenyei, Aladar. See Eigen, Edward.
- Leyden, James J., McGinley, Kenneth J., and Kligman, Albert M. Shorter methods for evaluating antidandruff agents, 573
- Like, Burt, Sorrentino, Ralph, and Petrocci, Alfonso. Utility of amine oxides in oil/water cosmetic systems, 155
- Lin, T. J., Kurihara, Haruki, and Ohta, Hideaki. Effects of phase inversion on the formation of O/W emulsions, 121
- Lorenzetti, O. J., Boltralik, J., Busby, E., and Fortenberry, B., The influence of protein vehicles on the penetrability of sunscreens, 593
- Loux, J. J. and Yankell, S. L. Evaluation of ocular decongestants in rabbits, 397
- Luckewicz, W. Differential thermal analysis of chrysotile asbestos in pure talc and talc containing other minerals, 431
- MacDonald, A. C. See Davis, W. B.
- Malcolm, S. A. and Woodroffe, R. C. S. The relationship between water-borne bacteria and shampoo spoilage, 277
- McCarthy, Justin P. and Schlossman, Mitchell L. Some properties of ethoxylated derivatives and their effect on cosmetic application, 523
- McConville, John F. and Anderson, David W., Jr., Aerobic microflora of the outer eye area of women of Los Angeles, Calif., 83
- McConville, John F. and Anderson, David W., Jr., Occurrence of *Pseudomonas aeruginosa* and *Staphylococcus aureus* in the orbital area, 169
- McGinley, Kenneth J. See Leyden, James J.
- Meyer, F. and Ziegenmeyer, J., The absorption potential of skin, 93
- Nicholas, P. See Van Abbé, N. J.
- Ohta, Hideaki, See Lin, T. J.
- Paukner, Ernst and Hudewenz, V. So-called odor eliminators, 235
- Petrocci, Alfonso. See Like, Burt.
- Phillips, Thomas S. See Goodard, E. Desmond.
- Platt, P. See Cropper, C.
- Porter, J. and Fouweather, C. An appraisal of human head hair as forensic evidence, 299
- Prottey, Colin and Ferguson, Terry. Factors which determine the skin irritation potential of soaps and detergents, 29
- Puttnam, N. A. See Cropper, C.
- Rees, D. A. See Davis, W. B.
- Rieger, Claus, Gross, Jürgen, Hollander, Horst, and Weigand, Walter. Inhalational, histological and dermatological studies on aluminum chlorhydroxide as active constituent of antiperspirant preparations, 531
- Rijnbeek, P. L. C. A. See Staal, E. M.
- Schlossman, Mitchell L., See McCarthy, Justin P.
- Scott, R. J. See Goddard, E. Desmond.
- Shanahan, Robert W. and Ward, Charles O. An animal model for evaluating the relative sting potential of shampoos, 581
- Sloughfy, Charles A. See Jolly, Eugene G. Sorrentino, Ralph. See Like, Burt.
- Staal, E. M. Bree, W., and Rijnbeek, P. L. C. A. Cough irritation by deodorant sprays, 509
- Steed, M. W. Evaluation of antiperspirant preparations under normal conditions of use, 17
- Sturelle, C. G. See Clar, E. J.
- Summa, A. F. See Fitzpatrick, F. A.
- Swift, J. A. See Brown, A. C.
- Tronnier, Hagen. Methods for the determination of sebaceous matter of the skin in regard to acne, 141
- Tunney, M. E. See Goddard, E. Desmond.
- Van Abbé, N. J., Nicholas, P., and Boon, Elizabeth. Exaggerated exposure in tropical irritancy and sensitive testing, 173
- Van Abbé, N. J. See Howlett, H. C. S.
- Ward, Charles O. See Shanahan, Robert W.
- Weigand, Walter. See Rieger, Klaus.
- Weiss, Sidney. See Eigen, Edward.
- Wilkinson, J. B. The promise and the product, 497
- Wilson, Clifton, H. Identification of preservatives in cosmetic products by thin-layer chromatography, 75
- Wolfram, Leszek J. See Hall, Kathleen.
- Wooding, W. M. and Finklestein, Paul. A critical comparison of two procedures for antiperspirant evaluation, 255
- Woodroffe, R. C. S. See Malcolm, S. A.
- Wulf, Alex. The influence of pigment particle size distribution on tinting, 389
- Yankell, S. L. See Loux, J. J.
- Ziegenmeyer, J. See Meyer, F.
