

Vol. 69 No. 5

September/October 2018

JOURNAL OF COSMETIC SCIENCE
The Official Journal of the Society of Cosmetic Chemists

**Proceedings
of TRI Princeton's
Eighth International
Conference
on Applied Hair Science**

**Red Bank, New Jersey
June 6–7, 2018**

Contents

	Page
Preface <i>Trefor A. Evans</i>	301
Hair Mechanical Anisotropy — What Does It Tell Us? <i>Steven Breakspear, Bernd Noecker, and Crisan Popescu</i>	305
Bridging the “Dead Hair” — “Live Follicle” Divide in Applied Hair Research <i>Marta Bertolini, Natalia Botchkareva, Gill Westgate, Chris Ward, Paul Cornwell, and Ralf Paus</i>	315
Hair Shaft Formation and Mitochondrial Bioenergetics: Combining Biology, Chemistry, and Physics <i>Yi Shan Lim, Duane P. Harland, and Thomas L. Dawson, Jr</i>	323
Morphological Changes of Human Hair Related to “Graying” <i>Lorena Bechthold, Erik Schulze Zur Wiesche, and Franz J. Wortmann</i>	335
Role of Internal Lipids in Hair Health <i>Jennifer M. Marsh, Shane Whitaker, Tim Felts, William Shearouse, Mike Vatter, Arto Määttä, Matthew Thompson, and Timothy J. Hawkins</i>	347
Investigating Prevention of UV Damage to Hair Using Raman Spectroscopy <i>Carrie B. Grundman</i>	357
Fragrance Retention in Virgin and Bleached Caucasian Hair <i>André Medice, Carolina Lourenço, Rebeca Gasparin, Adelino Nakano, and Anita J. Marsaioli In memoriam: Inés Joeke</i>	363
Quantifying Hair Motion <i>Trefor A. Evans and Sebastien Breugnot</i>	371
Quasi-Static Torsional Deformation of Single Hair Fibers: Application of a Modeling Approach and Results from Cosmetic Treatments <i>R. Lunn, Y. Leray, S. Bucknell, and D. Stringer</i>	383
Applying Light Scattering Theory to Measure Rinsability of Hair Conditioners <i>Selene Velez, Sarah Heether, Jung-Mei Tien, and Farahdia Edouard</i>	397

Note: These proceedings have been edited only for conformity to journal format by the Society of Cosmetic Chemists.
The text of the articles is presented here as submitted by TRI/Princeton.
