

AUTHOR INDEX TO VOLUME XIII

- Benson, F. R., Statistical Approach to Common Variables in Emulsion Preparation, 437
- Calandra, Joseph C., Interpretation of Eye Irritation Tests, 281
- Callison, J., Evaluation of Hair Dyes Using Photoelectric Colorimetry, 449
- Casely, R. E., Should Bacteriostats be Added to Toilet Soaps, 81
- Colwell, Charles E., Association Reactions of Polyethylene Glycols and Derivatives, 201
- Conrad, L. I., The Compatibility of Lanolin Derivatives with Dilute Hydrogen Peroxide, 362
- Cullum, D. C., Some Aspects of the Analysis of Household Detergents, 348
- Deem, Donald E., Modification of the Water Holding Capacity of Callus by Pretreatment with Additives, 263
- DeMytt, L. E., Preparation and Hair Waving Properties of 2,5-Dimercaptoadipic Acid, 253
- Dupree, R. W., Toxicological Properties of Several Commercially Available Surfactants, 459
- Eckardt, Wolfgang, The German Society of Cosmetic Chemists, 434
- Eckardt, Wolfgang, Die Gessellschaft Deutscher Kosmetik-Chemiker 1961-1962, 434
- Finkelstein, P., Preparation and Hair Waving Properties of 2,5-Dimercaptoadipic Acid, 325
- Flesch, Peter, The Cementing Substance of Human Horny Layers, 113
- Fox, Charles, Modification of the Water Holding Capacity of Callus by Pretreatment with Additives, 263
- Grant, S., Evaluation of Hair Dyes Using Photoelectric Colorimetry, 449
- Griffin, W. C., Statistical Approach to Common Variables in Emulsion Preparation, 437
- Gump, William S., Chemical Structure and Antimicrobial Activity of Bis-Phenols, II. Bactericidal Activity in the Presence of an Anionic Surfactant, 477
- Harris, Milton, Raymond E. Reed, Man and Scientist, 99
- Holland, W., Evaluation of Hair Dyes Using Photoelectric Colorimetry, 449
- Howard, Kenneth L., The Uses of Enzymes in Cosmetics, 59
- Hsiung, Du Yung, Preparations and Hair Waving Properties of 2,5-Dimercaptoadipic Acid, 253
- Husmann, Wilhelm, Probleme des biologischen Abbaus industriell verwendeter Detergentien und die Methodik der Abbaubarkeitsprüfung, 416
- Husmann, Wilhelm, Problems of the Disposal of Industrial Detergents and Test Methods, 416
- Kay, John H., Interpretation of Eye Irritation Tests, 231
- Klarmann, Emil G., The Open Problem of Biological Activity in Cosmetics, 65
- Knox, John M., Ultraviolet Absorbers, 119
- Laden, K., The Role of Glycerol in Skin Hydration, 455
- Linfield, W. M., Should Bacteriostats be Added to Toilet Soaps, 81
- Livengood, Samuel M., Association Reactions of Polyethylene Glycols and Derivatives, 201
- Lorincz, Allan L., Victor R. Wheatley, Ph.D., 312
- Masch, Ludwig-Wilhelm, The International Cooperation of the Cosmetic Chemists, 426
- Masch, Ludwig-Wilhelm, Die internationale Zusammenarbeit der Kosmetik-Chemiker, 426
- Mentecki, A. P., The Compatibility of Lanolin Derivatives with Dilute Hydrogen Peroxide, 362
- Meyers, Earl L., New Drugs and the Cosmetic Chemist, 459
- Morris, C. E., Protective Lacquer Systems for Aluminum Containers, 2
- Nelson, Jr., M. F., The Flow Gas Cell—An Inexpensive Geiger-Mueller Detector, 125
- Noble, F. W., Flexible Packs, 42
- Olson, K. J., Toxicological Properties of Several Commercially Available Surfactants, 469
- Percival, Robert W., Ion Exchange Resins and Their Applications to Drug and Cosmetic Products, 291
- Piel, R., Evaluation of Hair Dyes Using Photoelectric Colorimetry, 449
- Plá-Delfina, José M., A Systematic Method for Identification of Food, Drug and Cosmetic Azo Dyes, 215
- Plomer, E. T., Toxicological Properties of Several Commercially Available Surfactants, 469

- Rader, Charles A., Recent Developments in Surface Physics of Interest to Cosmetic Science, 247
- Randebrock, Rudolf, Electron Microphotographs of Human Hair, 404
- Randebrock, Rudolf, Elektronenmikroskopische Aufnahmen des menschlichen Haares, 404
- Reed, Raymond E., The Definition of "Cosmeceutical," 103
- Rieger, Martin M., Modification of the Water Holding Capacity of Callus by Pretreatment with Additives, 263
- Root, Morris J., Importance of pH in Anhydrous Aerosol Hair Spray Systems, 300
- Rowe, V. K., Toxicological Properties of Several Commercially Available Surfactants, 469
- Schmidt, C., Evaluation of Hair Dyes Using Photoelectric Colorimetry, 449
- Schwartz, Anthony M., Recent Developments in Surface Physics of Interest to Cosmetic Science, 247
- Seher, Artur, Chromatographische Analysen-Verfahren in Wissenschaft und Betriebskontrolle, 385
- Seher, Artur, Chromatography in the Laboratory and in Quality Control, 385
- Silson, John, Pregnenolone Acetate—A Dermatologically Active Steroid, 129
- Tarrant, C., Production and Properties of Glass Containers, 15
- Tasoff, James A., Modification of the Water Holding Capacity of Callus by Pretreatment with Additives, 263
- Truax, H. M., Statistical Approach to Common Variables in Emulsion Preparation, 437
- Walter, George R., Chemical Structure and Antimicrobial Activity of Bis-Phenols, II. Bactericidal Activity in the Presence of an Anionic Surfactant, 477
- Weinberg, Eugene D., Mechanisms of Action of Antibacterial Substances, 89
- Wheatley, Victor R., Acceptance of The Special Award, 315
