

INDEX TO VOLUME 24

AUTHOR INDEX

- Allen, B. M. See Middleton, J. D.
- Bakiewicz, T. A. A critical evaluation of the methods available for measurement of antiperspirancy, 245
- Baldwin, H. A., McDonald, T. O., and Beasley, C. H. Slit-lamp examination of experimental animal eyes. II. Grading scales and photographic evaluation of induced pathological conditions, 181
- Baldwin, H. A. See also McDonald, T. O.
- Beasley, C. H. See Baldwin, H. A., and McDonald, T. O.
- Becher, Paul. Emulsion terminology (letter to editor), 213
- Berke, P. A. See Rosen, W. E.
- Berube, G. R. See Roye, G. S.
- Bidmead, M. C., and Rodger, M. N. The effect of enzymes on stratum corneum, 493
- Bingham, K. D., and Shaw, D. A. Male pattern baldness and the metabolism of androgens by human scalp skin, 523
- Busch, F. W. See Roye, G. S.
- Büsch, G., and Neuwald, F. Metallic soaps as water-in-oil emulsifiers, 763
- Cambrai, M., and Do-Linh, H. Phoreography, a new method of determining the effect of uv radiation on skin, 3
- Chen, S. J. In-line, continuous mixing and processing of cosmetic products, 639
- Cohen, G. L. See Newman, Walter.
- Corbett, J. F. The role of meta difunctional benzene derivatives in oxidative hair dyeing. I. Reaction with *p*-diamines, 103
- Dawson, F. W. Some techniques for microbial control in manufacturing plants, 655
- DiBianca, S. P. Innovative scanning electron microscopic techniques for evaluating hair care products, 609
- Do-Linh, H. See Cambrai, M.
- Fairchild, C. M. See Kabacoff, B. L.
- Feldman, A. J. See Schlossman, M. L.
- Ferguson, T. F. M. See Prottey, C.
- Flawn, P. C., Malcolm, S. A., and Woodroffe, R. C. S. Assessment of the preservative capacity of shampoos, 229
- Führer, C., and Parmentier, W. Melting characteristics of ointments and creams, 737
- Gibson, I. M. The evaluation of hand-care preparations, 31
- Hardy, Joan. Allergy, hypersensitivity and cosmetics, 423
- Hartop, P. J. See Prottey, C.
- Hayes, Cletus. See Newman, Walter.
- Hefferren, J. J. Interfaces of laboratory and clinical assessment of therapeutic dentifrices, 815
- Hemsworth, B. N. Biological changes due to topical application of skin lightening compounds, 727
- Hole, L. G. Sweat disposal from footwear and health and hygiene of foot skin, 43
- Hoppe, Udo. New sunscreens substances with affinity to the skin, 317
- Hostýnek, J. J. See Vaterlaus, B. P.
- Idson, Bernard. Laboratory and clinical evaluation of antidandruff preparations, 395
- Idson, Bernard. Water and the skin, 197
- Janiček, Gustav. See Pocorný, Jan.
- Johnson, C. E., and Shuster, S. The use of partial sweat duct occlusion in the elucidation of sweat duct function in health and disease, 15
- Kabacoff, B. L., Mohr, George, and Fairchild, C. M. Chromatographic determination of trace components in D and C Red No. 37, 551
- Kaib, M. See Steiner, W.
- Kitchener, J. A. Surface forces in the deposition of small particles, 709
- Kundu, M. K. See Pocorný, Jan.
- Kurihara, H. See Lin, T. J.
- Laden, Karl. Studies on irritancy and stinging potential, 385
- Lansdown, A. B. G. The rat foot pad as a model for examining antiperspirants, 677
- Lien, E. J., and Tong, G. L. Physicochemical properties and percutaneous absorption of drugs, 371
- Lin, T. J., Kurihara, H., and Ohta, H. Effect of surfactant migration on the stability of emulsions, 797

- Maguire, H. C., Jr. The bioassay of contact allergens in the guinea pig, 151
- Maibach, H. I. See Marzulli, F. N.
- Majors, P. A. See Thomas, M. J.
- Malcolm, S. A. See Flawn, P. C.
- Marzulli, F. N., and Maibach, H. I. Antimicrobials: experimental contact sensitization in man, 399
- McDonald, T. O., Baldwin, H. A., and Beasley, C. H. Slit-lamp examination of experimental animal eyes. I. Techniques of illumination and the normal animal eye, 163
- McDonald, T. O. See also Baldwin, H. A.
- Middleton, J. D., and Allen, B. M. The influence of temperature and humidity on stratum corneum and its relation to skin chapping, 239
- Mohr, George. See Kabacoff, B. L.
- Motl, O., and Trka, A. Composition of the essential oil from *Cedrela odorata* L., 747
- Neuwald, F. See Btisch, G.
- Newman, Walter, Cohen, G. L., and Hayes, Cletus. A quantitative characterization of combing force, 773
- Ohta, H. See Lin, T. J.
- Parmentier, W. See Führer, C.
- Pocorný, Jan, Kundu, M. K., and Janiček, Gustav. Chromatographic separation of cosmetic products and raw materials with the aid of urea, 753
- Pomfret, J. D. High-accuracy blend control, 593
- Prall, J. K. Instrumental evaluation of the effects of cosmetic products on skin surfaces with particular reference to smoothness, 693
- Prall, J. K. See also Wedderburn, D. L.
- Prottey, C., Hartop, P. J., and Ferguson, T. F. M. The effect of soap upon certain aspects of skin biochemistry, 473
- Rance, R. W. Studies of the factors controlling the action of hair sprays. I. The spreading of hair spray resin solutions on hair, 501
- Rentschler, G. See Tronnier, H.
- Rodger, M. N. See Bidmead, M. C.
- Rosen, W. E., and Berke, P. A. Modern concepts of cosmetic preservation, 663
- Roye, G. S., Berube, G. R., and Busch, F. W. Computer-assisted product development, 783
- Sanders, P. A. The relationship between aerosol emulsions and foams. I. Triethanolamine myristate/Freon propellant systems, 87
- Sanders, P. A. The relationship between aerosol emulsions and foams. II. Aqueous triethanolamine myristate/mineral oil/Freon propellant systems, 623
- Schaefer, H. The quantitative differentiation of sebum excretion using physical methods, 331
- Schlossman, M. L., and Feldman, A. J. The evaluation of chemical binders and their effect on pressed powders, 357
- Schmolka, I. R. The synergistic effects of nonionic surfactants upon cationic germicidal agents, 577
- Scott, H. McG. Methods for counting and testing for microorganisms in raw materials, topical and oral products, 65
- Semionow, Dymitri. See Wolf, Thomas.
- Senior, N. Some observations on the formulation and properties of chlorhexidine, 259
- Shaw, D. A. See Bingham, K. D.
- Shellow, W. V. R. See Wright, E. T.
- Shuster, S. See Johnson, C. E.
- Steiner, W., and Kaib, M. The interaction between odorant and olfactory cell, a basic problem, 307
- Steinhauer, A. F. Laboratory and human exposure evaluation of unique sunscreen formulations, 541
- Thomas, M. J., and Majors, P. A. Animal, human, and microbiological safety testing of cosmetic products, 135
- Tong, G. L. See Lien, E. J.
- Trka, A. See Motl, O.
- Tronnier, H., and Rentschler, G. Laboratory evaluation of the efficacy of aluminum-containing antiperspirants, 281
- Uttley, Margaret, and Van Abbé, N. J. Primary irritation of the skin: mouse ear test and human patch test procedures, 217
- Van Abbé, N. J. Eye irritation: studies relating to responses in man and laboratory animals, 685
- Van Abbé, N. J. See also Uttley, Margaret.
- Vaterlaus, B. P., and Hostýnek, J. J. The safety of hexachlorophene, 291
- Wedderburn, D. L., and Prall, J. K. Hair product evaluation: from laboratory bench to consumer and back again, 561
- Wolf, Thomas, and Semionow, Dymitri. Rapid liquid chromatography of bacteriostats, 363
- Woodroffe, R. C. S. See Flawn, P. C.
- Wright, E. T., and Shellow, W. V. R. The histopathology of wrinkles, 81
