#### ACCELERATING OUR SUSTAINABLE FUTURE

The 100% Bio-Based ECO Range is the widest range of 100% renewable surfactants on the market with over 50 different personal care ingredient codes. By using an alternative route to EO with bioethanol from biomass sources, it significantly increases the bio-based content of ethoxylated products and reduces reliance on fossil fuels.

This range of ingredients meets consumer demands for performance, while being 100% renewable and 100% bio-based. Moreover, the ingredients are manufactured with renewable energy and have a lower carbon footprint than petro-based options.

Join us on this sustainability journey Learn more about the 100% Bio-based ECO Range of surfactants.

North America marketing-usa@croda.com Europe, Middle East & Africa pc-europe@croda.com

- 100% renewable
- 100% bio-based<sup>1</sup>
- Vegan & Cruelty-Free Suitable<sup>2</sup>
- Low levels of 1,4-Dioxane
- Reduces reliance on fossil fuel feedstocks
- Manufactured with renewable energy
- Performance identical to petro-based options
- Lower carbon footprint than petrobased versions
- USDA Certified Biobased Product<sup>3</sup>
- RSPO Supply Chain Certified via Mass Balance<sup>4</sup>

(1) Calculated using USDA BioPreferred Method for determining bio-based content and validated, or being validated, by carbon 14 testing (ASTM D6886) (2) May be suitable for vegan and/or cruelty-free claims. If you are interested in making a vegan and/or cruelty-free claim, please request our Vegan Suitability statement and/or Animal Testing statement for specifics on this product and compare to the certification(s) you are seeking to meet (3) USDA BioPreferred® is a registered trademark of the U.S. Department of Agriculture (4) Products containing palm oil derivatives

### Take your passion for cosmetics and personal care to new heights.

At the University of Cincinnati, our approach to cosmetic science is for inventors and explorers. For those ready to make an impact in one of the fastest growing and increasingly science-driven fields. Our innovative programs help prepare students today to gain knowledge that will help them develop as industry leaders for tomorrow. ONLINE PROGRAM OPTIONS:

Master of Science in Cosmetic Science

Graduate Certificate in Cosmetic Science

University of CINCINNATI ONLINE
