ACCELERATING OUR SUSTAINABLE FUTURE

The 100% Bio-Based ECO Range is the widest range of 100% renewable surfactants on the market with over 50 different personal care ingredient codes. By using an alternative route to EO with bioethanol from biomass sources, it significantly increases the bio-based content of ethoxylated products and reduces reliance on fossil fuels.

This range of ingredients meets consumer demands for performance, while being 100% renewable and 100% bio-based. Moreover, the ingredients are manufactured with renewable energy and have a lower carbon footprint than petro-based options.

Join us on this sustainability journey

Learn more about the 100% Bio-based ECO Range of surfactants.

Visit us at: www.crodapersonalcare.com

- 100% renewable
- 100% bio-based¹
- Vegan & Cruelty-Free Suitable²
- Low levels of 1,4-Dioxane
- Reduces reliance on fossil fuel feedstocks
- Manufactured with renewable energy
- Performance identical to petro-based options
- Lower carbon footprint than petro-based versions
- USDA Certified Biobased Product³
- RSPO Supply Chain Certified via Mass Balance⁴

(1) Calculated using USDA BioPreferred Method for determining bio-based content and validated, or being validated, by carbon 14 testing (ASTM D6886)

(2) May be suitable for vegan and/or cruelty-free claims. If you are interested in making a vegan and/or cruelty-free claim, please request our Vegan Suitability statement and/or Animal Testing statement for specifics on this product and compare to the certification(s) you are seeking to meet (3) USDA BioPreferred® is a registered trademark of the U.S. Department of Agriculture (4) Products containing palm oil derivatives

Responsibility for Statements Published: The Society of Cosmetic Chemists, the Journal Advisory Group, and the SCC Board of Directors assume no responsibility for statements or opinions advanced by contributors to this Journal.

Editors and Publishers: Abstracts or digests of articles not exceeding 400 words may be published when duly credited to the author(s) and the *JOURNAL OF COSMETIC SCIENCE*®.

Authors: When using illustrations or quotations taken from copyrighted publications, authors must get written permission from the copyright holder to reproduce the same.

Manuscripts: Manuscripts should be prepared in accordance with "Information for Authors," which can be found at the end of this issue.

Inquiries: Address mailed inquiries to: Editor, Journal of Cosmetic Science; The Society of Cosmetic Chemists; 14 Wall Street, Suite 1620; New York, NY 10005; or electronically to journal@scconline.org.

fuel the science behind

personal care

Take your passion for cosmetics and personal care to new heights.

At the University of Cincinnati, our approach to cosmetic science is for inventors and explorers. For those ready to make an impact in one of the fastest growing and increasingly science-driven fields. Our innovative programs help prepare students today to gain knowledge that will help them develop as industry leaders for tomorrow.
